

WCEC NON-STANDARD METER ORDER FORM

At WCEC, we have adopted a new digital metering standard that will offer consumers and the cooperative many advantages. But, we also support our member's rights. Those that choose to may elect to have an older technology non-communicating meter installed at their point of service.

There is an added cost to the cooperative to maintain these non-standard meters. A WCEC employee will be required to physically travel to the meter location and manually read the meter. Also, WCEC will need to perform extra non-standard record keeping. Therefore, those that choose that type of service must pay a fee to help defray that cost.

Effective June 1 of 2016, the following fees will charged to members that select, via the official non-standard meter order form, the alternate meter provided by WCEC.

The rates will be as follows:

Enrollment Fee	\$120.00	(1X \$120.00 charge)
Monthly Fee	\$25.00	(Monthly meter reading & maintenance)

Digital Meter VS Non-Standard Features

Feature	Digital	Non-standard
Remote Connect	YES	NO
Remote Disconnect	YES	NO
Future real-time access to usage data via internet	YES	NO
Setup Charge	\$0.00	\$120.00
Monthly Administration Fee	\$0.00	\$25.00
Monthly WCEC site visits to read meter	NO	YES

WCEC NON-STANDARD METER ORDER FORM

Terms & Conditions - Wood County Electric Cooperative's (WCEC) agrees to provide a non-standard non-communicating meter for the service at the member address listed on this contract. By entering into this agreement, the member agrees to pay a 1X \$120.00 installation fee per meter, as well as a \$25.00 monthly fee per meter for this special service, which will require a WCEC meter reader to visit the location monthly, as well as non-standard record-keeping and maintenance by WCEC. By signing this contract the member agrees to provide unencumbered access to WCEC's meter. This contract is not a purchase agreement and WCEC retains sole ownership of all metering equipment. All standard tariff and membership terms remain. **By signing this agreement, the member also acknowledges the limitations of a non-standard meter:**

1. In the event of a service interruption or outage, you could experience longer restoration times.
2. A non-standard meter will not be installed until the \$120.00 nonrefundable fee is paid.
3. The meter will be installed within 5 days of payment (subject to commercial availability).
4. Members will not be notified in advance of the installation day, but once on site an attempt will be made to notify the member before power is shut off for the non-standard meter is installed.
5. Members with non-standard meters can, at any time, elect to request the new standard digital meter. Any fees incurred prior for the non-standard service will not be refunded but the recurring monthly fee of \$25.00 will be discontinued.
6. If the member elects to return to a standard meter, there will be a one-time \$25.00 charge to swap out the meter.
